Summary

Software Engineer with 2 years of experience translating complex enterprise needs into high-impact solutions. Proven track record of architecting real-time market analysis engines and B2B platforms that drive measurable revenue and operational efficiency. Winner of the Smart India Hackathon 2024 (MoE & DRDO) for deploying high-speed AI systems.

Professional Experience

Software Engineer, *Emergys Solutions* Jan 2025 – present | Pune, Maharashtra

- Partnered directly with the business strategy team as the lead technical owner to automate competitive market analysis.
- Architected and deployed a **real-time Tariff Monitoring AI Agent** from concept to production, creating a new source of live, actionable intelligence for the company.
- **Eliminated 10+ hours of weekly manual analysis** and slashed data latency by over 90% (from 24 hours to under 5 minutes), freeing up analyst resources for higher-value work.
- The system's success directly transformed the team's decision-making process, enabling proactive, data-driven pricing strategies that improved market responsiveness.
- Designed and implemented tech-integrated business solutions for global clients in industries such as sports accessories, pet food, cosmetics, and automotive manufacturing, enhancing scalability and operational performance.
- **Tech Stack:** Python, REST APIs, LLMs, Retrieval-Augmented Generation (RAG), Semantic Search, SQL, Selenium, Web Scraping, Pandas, think-cell, Excel Automation, Git/GitHub

Freelance Software Developer, *Immortalcode Software Solutions* Jan 2024 – Apr 2024 | Remote

- Consulted with corporate leadership to lead the development of a B2B marketing platform, sponsored by the company to fulfill a specific business requirement for a **"Vendor Messaging and Oversight Hub."**
- Architected and delivered a full-stack **B2B growth engine** that empowered vendors to convert customer inquiries into sales opportunities through an automated lead-capture and communication system.
- Engineered the platform's two core synergistic features: an intelligent sales funnel that launched via WhatsApp/SMS, and a "zero-effort" digital storefront builder that served as the campaign's landing page.
- Successfully completed and delivered the entire project within the specified 3-month timeline, earning official sign-off and commendation from the company director.

Projects

DocLens 2024, *AI-Powered Document Verification (Winner, Smart India Hackathon 2024)*

- Forged the winning AI engine for a national challenge by the **Ministry of Education (MoE)** and **DRDO**, built to instantly adjudicate official documents at machine speed.
- The vision pipeline achieved a **99.7% (Three Sigma) accuracy** rate, processing documents in under **3 seconds**, significantly reducing bottlenecks in high-volume government workflows.

Skills

- **Languages & Databases:** Python, HTML/CSS, MySQL, MongoDB, Firebase
- **Frameworks & Cloud:** Django, React.js, Gradio, Streamlit, Git, GitHub, Docker, Postman, AWS, GCP, Hugging Face Spaces
- **AI & Machine Learning:** NLP (Hugging Face), Scikit-learn, Pandas, OCR, Predictive Modeling
- **Product & Business Analysis:** PoC & MVP Development, Competitive Market Analysis, Supply chain, AI Should Costing.
- **Technical Consulting:** B2B Solution Architecture, Business-to-Technical Translation, Stakeholder Alignment, Feasibility Analysis
- **Execution Methodologies:** Agile/Scrum Delivery, Cross-Functional Team Collaboration, Rapid Prototyping

Leadership Experience

- **Winner, Smart India Hackathon 2024** (Finalist in 2023)
- **Secretary**, Indian Society for Technical Education (ISTE) and LOL (Learning Out Loud) Coding Club

Education

Walchand Institute of Technology, Solapur 2022 – 2025 | CGPA : 9.33/10.0
Bachelor of Technology

- **Major**: Computer Science and Engineering - **Minor**: Artificial Intelligence and Machine Learning (AIML)

Solapur Education Society's Polytechnic, Solapur 2019 – 2022 | Percentage: 90.40%

- Diploma In Computer Technology

Certificates

- **MTA: Introduction to Programming Using Python** -Microsoft | 2022 w9Bzu-H9MW
- **(DP-800)SQL AI Developer Associate** -Microsoft | 2026 2Q7567-F67CBE
